

NAR's Short Sales and Foreclosures: What Buyer's Representatives Need to Know

According to National Association of REALTORS® (NAR) data, nearly one-third of all existing homes sold recently were either short sales or foreclosures. To help REALTORS® meet the needs of home buyers and sellers who need these services, NAR has launched a new **Short Sales and Foreclosure Resource (SFR) Certification**.

Earn this certification before March 31, 2010 and NAR will waive the 3 webinars and application fee.

The SFR Certification will give you a framework for understanding how to:

- Direct distressed sellers to finance, tax, and legal professionals
- Qualify sellers for short sales
- Develop a short-sale package
- Negotiate with lenders
- Tap into buyer demand
- Safeguard your commission
- Limit risk and protect buyers

To receive the SFR Certification, you must complete the one day core course and successfully pass the exam, as well as view three 1-hour Webinars (available free of charge), and submit completed application (\$175 application fee waived through December 31, 2009).

NAR's Short Sales and Foreclosures Course also meets the elective course requirement for the ABR® Designation awarded by the Real Estate Buyers Agent Council (REBAC). For more information about the ABR® Designation, visit <http://www.car.org/education/designations/abr/>
